

Player Reference

Roll Formulas

For uncertain actions, the GM calls for a skill check. The player proposes an **ABI + Skill**, which the GM approves or adjusts. Roll $1d10 + ABI + Skill + modifiers$ and compare the total to the GM-set DIF. No roll is required if failure is impossible.

Firearm Attacks	$PER + Guns + Bonuses + 1d10$	Ranged Attacks	$PER + Ranged + Bonuses + 1d10$
Melee Attacks	$STR + (Melee\ or\ Hand\ 2\ Hand) + Bonuses + 1d10$	Thrown Attacks	$STR + Thrown + Bonuses + 1d10$
Initiative	$PER + AGI + Bonuses + 1d10$	Perception Checks	$PER + Bonuses + 1d10$

Critical Results

On any Melee, Ranged, Firearm, or thrown attack, a natural 10 is a **Critical Success** (*always hits*). A natural 1 is a **Critical Complication** (*always misses and triggers a GM-determined story impact*). On a skill check, a Critical Success provides **2 TP**.

Body Part Hit & Effects

Shots can be called at additional DIF, or default to random: 1d10: 1-5 Torso; 6-7 Right Leg; 8-9 Left Leg; 10 Head.

Critical Success effects:

Head (+3 DIF): Target knocked Unconscious for 1 full round; if reduced to 0 HP by this shot, target is dead (skips dying).	Torso (+1 DIF): Target is Winded ; cannot take a LA and may take only 1 SA until healed.
Arm (+2 DIF): Target drops anything held in that arm; arm is unusable until healed.	Leg (+2 DIF): Target knocked Prone ; cannot run until healed.

Action Reference

Small Actions (SA)

Aim; cast a simple spell; change weapons (on body); drink or eat; duck down (partial cover); pull item from body; reload crossbow or firearm; walk base movement.

Large Actions (LA)

Attack; cast a complex spell; change weapons or items (from container); fix a misfired gun; perform a skill check; run (2x base movement); stand from prone; take cover (full cover).

If you **have not moved** and **will not move** as either a **SA** or a **LA** on your turn, you can *always* take a 5 Foot Step (**5FS**), and a 5FS *never* triggers an Attack of Opportunity (**AoO**)

Conditions

Bleeding → Gushing 1 HP / round per Bleed DMG. Gushing : 2 HP / round, -1 Toughness.	Fuzzy → Blinded -1 TAC, -2 PER, 25% miss chance, Blinded : -2 TAC, -4 PER, 50% miss chance.
Resolve : Successful skill check can reduce by one step, two consecutive successes needed to reduce fully resolve from Gushing.	Resolve : Successful skill check reduces by one step, 4 rounds without issue reduces by one step.
Hidden : +2 to hit, enables sneak attacks. Resolve: Ends when revealed by light, noise, or interaction.	Poisoned : Effects and duration defined by archetype. Resolve : Defined by archetype. Archetypes : Neurotoxin, Hallucinogen, Hemophilia, Paralytic, Toxic, Sedative
Prone : Stand requires 1 LA , +2 TAC vs ranged, -2 TAC vs melee/unarmed while Prone	Shaken → Frightened → Horried -1 ATK, saves, and skill checks. Frightened : -2 ATK, saves, and skill checks, cannot move, takes cover.
Unconscious → Dying 0 HP is unconscious. Dying : Lose 1 HP/round, death at $(STR + END) \times -1$ HP.	Horried : Flee base movement from source, roll 1d8 direction (1 = North, clockwise).
Resolve : Skill check stabilizes, HP > 0 revives	Resolve : Remove source reduces one step, 4 rounds reduces one step, skill check reduces one step
Winded : No LA , only 1 SA . Resolve : Successful skill check or rest	

Luck Points (LP)

Individual resource usable **before a roll**, including on *another character's turn*.

Reduce DIF: Lower the DIF of a roll by 1–3 before rolling; **Narrow Hit**: Convert a full hit into a glancing hit (½ damage); **Reduce Action Time**: Downgrade an action (LA → SA);

Ask a Question: GM must answer one clarifying question truthfully; **Remove Called Shot Penalty**: Ignore penalties applied for a called shot.

Team Points (TP)

Shared group resource usable only on *an active character's turn*.

Extra Action: Gain an additional SA or upgrade a SA to a LA; **Bonus Damage**: Increase damage dealt by +10% or +25%; **Initiative Jump**: Act immediately by moving to the top of the initiative order;

Assist Ally: Grant +2 to another character's roll; **Recover Position**: Negate being knocked prone; **Reduce Condition**: Downgrade a condition by one step.
